Yearbookers- The Chef's

We of the Royal Georgian Press recognize the importance of the responsibility placed upon us this year in the making of the Yearbook. Although most of us signed up hoping to create a nice break between periods 1 and 2 we were shocked to find that in order to create a Yearbook, we would need to work. After an eight month battle for entry we realized it was time to start the book. If you are reading this, you know that we were somewhat successful.

Regardless of how many people tell you that they will keep in touch, in twenty years this book is all you'll have, so cherish it. The following is a glimpse into our trials and tribulations as we struggled to not fall on ourselves and each other in making this book. Also, it should be noted that the theme is Food and Restaurants, just because they play such an essential role in the life of all Georgians. Ian Pattillo, Surrogate Editor

Sr. School Graduation Address

There is a wonderful sequence in a children's story, which I read to the grade three class each year, dealing with the meaning of prayer through a relationship between a young boy and his grandfather. At one point the boy asks his grandad if prayers are ever answered and the reply is so meaningful...maybe even timely... "Most prayers are not really questions", the grandfather states. "And if we listen closely a prayer is often its own answer. We pray because we are here – not to change the world but to change ourselves."

Fellow Staff Members, Members of the Board of Governors, the Georgian Parents' Guild, Alumni, Parents, Honoured Guests, and most importantly, Members of the Graduating Class of 2002. "We pray because we are here – not to change the world but to change ourselves." ...That is what you should consider.

What has taken place over the past four years that has not forced you to change...But rather has given you the opportunity to change. I won't burden you with the presumptuousness of advice but...here is what I believe...

No matter what the incident, no matter how terrible the issue, no matter how overwhelming the problem or how deep a hole you find yourself in... There is always learning to be done. And a major part of learning is to be able to know how to take negatives and turn them into positives. Life long learning is a reality... and those who embrace this fact and learn to live with the implications will have gained a huge advantage.

Let's face it, high school is an adventure. You began in grade nine, and no matter what you may say about the current state of grade nine students...that's what you were like. There were many ups and there were crashing moments of agony and despair... of course that's reality and that's life. But this chapter is over...A part of your life is complete and the only things left are the memories...and the learning.

You should be proud...and at the risk of sounding presumptuous, you should be thankful. Proud and thankful to your family, especially to your parents, who have provided you with an opportunity

Headmaster Hal Hannaford

throughout these past four years. You should now understand how much they care for you, support you and love you. They will always be there, believe me, (my father is here today, as is my wife Susan) and although I'll be sure to get a critical review of today's proceedings, I am sure glad they're here.

I hope you are proud and thankful of the staff. Life long learning begins with understanding the experience you gain from the daily interaction with all sorts of different personalities. When you reflect back I hope you realize how much they have given, how much they have cared and how much satisfaction they have gained from your success. I have no doubt about the greatness of our staff and faculty. We have our issues, but that's why we are a great school. So, in this public forum let me acknowledge the work of the staff and faculty.

I hope you can be proud and thankful to your school – Royal St. George's College. There are not many places like it. This community is so strong. Yes, it is intense, and emotional, but at its core is a belief in the principles of respect, responsibility and voice. Our community is strong because of the commitment of so many including our Board of Governors and in particular Mr. Andy Jones, The Chair, the Georgian Parents' Guild, and in particular the president of this past year Mrs. Joanne Love, The Alumni and in particular the president Chris Yelle, and of course our many friends.

Finally, I hope you can be proud and thankful of each other. Your classmates... Your friends... Your fellow Georgians.

These are the people who probably know you the best.

Here's another point I believe in...Life long learning requires you to learn from each other, so keep in touch. Andrew Potts-Robinson came up with a brilliant term during one AP Economics class. He used the phrase "Cross Motivation" to explain how productivity can increase by feeding off the energy of each other. Don't forget this, there is a lot of energy sitting in this room today. Use it wisely.

In closing, let me leave you with three small suggestions. My wife Susan insists that each year I remind our graduating students about the value of being kind. So gentlemen, try to be kind. And when you are faced with the most challenging time, that is when you should try to be the most kind. You will be amazed how far it will get you.

Secondly, try to separate people from the issues. If this year hasn't illustrated the importance of this, then I don't know what will. Every person deserves to be treated with the ultimate respect, although at times, behaviour, separate from the people, needs to be dealt with appropriately. Life long learning is the ability to learn from our inappropriate behaviour to become better people.

Finally, there are four long serving, leaving faculty members who can provide valuable lessons. Learn from these gentlemen...Learn something from each. From Werner Schreiner, you can learn a love of the outdoors and the true joy one can gain from committing oneself to one's family. From John Birkett, you can learn about the value and importance of traditions...and why they are worth fighting for. From Mr. Kerr you can learn to appreciate the fact that with experience can come great wisdom. And from Gage Love you can't help but learn that loving what you do is contagious. So love what you do. Enthusiasm does go a long way.

So it's the end. Off you go my friends. Off to conquer, to enjoy, to learn. Your task is now to make us look good, and somehow I think you are going to be just fine. Wherever you may be heading, try to remember that my thoughts and prayers are with you. Goodbye, good luck and God Bless.

Jr. School Prize Day Address

Spoken as the final bars of Leonard Bernstein's Chichester Psalms were played over the sound system:

Friends:

What you just heard, in Hebrew, was the first verse of the one hundred thirty-third psalm. In English, it is translated as "What a good and pleasant thing it is for brethren to dwell together in unity". There is a certain synchronicity in that this version was composed by Leonard Bernstein for the choral festival in Chichester, England, about the same time as I was writing my last undergraduate exams and about the same time as a small new school on Howland Avenue was completing its first year of operation. I heard this music several years later when I was working at Lakefield College School, which was used as the training camp for the Ontario Youth Choir. It is a calming piece after a frazzled day.

The idea of dwelling together in unity has a great deal to do with Jack Wright's oft-stated "Manners maketh the man": both are the measure of a civilized society. The creation of unity is not achieved through being passive. As is the case with anything worthwhile, it takes a great deal of effort on the part of all involved. In building a meaningful relationship - be it with classmates, teachers, parents, siblings, or with any kind of boss, each party must constantly strive to do the utmost to strengthen that relationship. Manners are certainly one part of the process, but the constant striving to do one's best, to expand limits, and to take responsibility (for one's own actions and for society as a whole) are all key components.

Those of you in red blazers may have only limited experience with these demands, but I do believe that you understand their importance.

John Birkett and the winner of the St. George's Society Award, Patrick Hamer-Meunier

Those of you not in red blazers are much more familiar with them, yet there are occasions when false steps are taken, albeit with best of intentions. As parents and educators, we are sometimes guilty of depriving our children of the very educational opportunities we seek to give. There is a desire to protect them from the possibility of making a mistake or to free them from the responsibility of accepting the consequences of their actions. This is to deprive them of two of the most important learning experiences they will ever have. I ask you to try and think of a time when you didn't learn from a mistake, and to remember the awkwardness - even embarrassment - of having to deal with the consequences of a particular action. Both experiences help us grow.

To the grade eights, who are going on to face new experiences in the senior school, I say that I too am wondering what I'm going to be when I grow up. To them, and to myself I give some excellent advice taken from Shakespeare. In Hamlet, the elderly -and rather conniving - Polonius gives advice to his son Laertes, who is about to embark on a voyage. Having earlier mentioned financial matters, choice of

friends, and care in matters of dress, Polonius closes with the statement I now give to you: "..... and this above all: to thine own self be true, and it must follow, as the night the day, that thou canst not then be false to any other man."

Thank you.

As the speech was ex tempore, what you've just read is a re-creation.

John Birkett, Senior Master

The Grade 4s were an interesting lot. I caught up to them at lunch, in Ketchum Hall. They were a rowdy crew, scarfing down their hotdogs and croissants. I nervously approached and inquired as to what their favourite food was. To which, they replied unanimously: PIZZA PIZZA PIZZA (yes, that is three pizzas). Except for one meek voice, who cried Spaghetti...spaghetti. Well, lone meek boy, thank you for the spaghetti.

Favorite Fast Food Survey

The yearbook staff were curious to find out which fast food joint was most popular amongst the Grade Seven population at Royal St George's College. We wrote up a quick survey and handed it to an anonymous Grade Seven. After ripping it up and eating the piece of paper the survey was written on, he spat it back at me and ran away. I suddenly became aware that it was not a Grade Seven with which I was dealing but A GRADE SIX!! I was lucky he didn't kick me in the crochad region or tell me my mom smells, and get all his friends to laugh at me. Anyways, I finally found the Grade Seven class and had them fill out the survey, and here are the results

I spent ten of my most memorable years at RSGC, and have my parents to thank ever so much for providing me with the opportunity of attending this great school. They have continually supported me and will always be my number one inspiration. I also want to thank all the staff for their guidance and those who have shaped my character during my tenure here. Mr. D'Arcy, thanks for always understanding and being a great role model; Mr. Van Herk for all your help with the applications and being there for me; Dr. Skalinski for always motivating me to achieve my best; Ms. Miller for your kindness; Mr. Rankin for your wackiness; Ms. Hill and Ms. Wager for always caring and supporting me; and Mr. Hannaford for your encouragement. Finally, mad shout out to: ML (since grade 1), MC (scar, bra 4 life), AF (remember the flamingo), CH (reppin' WWMS), AH (funny guy), AF (ford built tough), KG (we'll hit med school together), TS (raw comedy), MM, PT, Pauly T, UJ, and all the prefects. Thanks for the good times.

"You can have many things taken away from you- your money, your friends, your country, even your health-but never your knowledge. It travels with you everywhere." -Rudolf Nureyev
I fast-tracked without realizing it! It is both unbelievable and satisfying at the same time. Although my time here is coming to an end, I have many memories that will stay with me forever. Special thanks goes to Francis Teofilovici, Francis Powell, Mark Longo, Rob Gainer, Tim Wong, and Jay Jolliffe for being great friends. To all my other friends who remain in the school or who've graduated, thanks for the memories. To the staff, thanks for giving me an inspiring education and for nurturing my perpetual curiosity, especially Mr. Love for US History, Srta. Deblois for Spanish, and Mrs. Miller for English. Thanks to everyone at Northern Karate for being both a diversion from academia and a life inspiration. And special thanks to my family for helping me keep things in perspective.

High School was great, and I've got a lot of people to thank for getting me through it. First of all, my parents (for forcing me to go to St. George's). Next, I gotta thank some of the teachers: Dr. Ryall (greatest math teacher ever); Tito (for putting up with all my sh**); and VH (for all his help). Finally, all of my friends. You guys made high school worth going to. Mike Chan (sex ed. in accounting); Godfrey (no common sense! Jokes!); Jamie, Ford and CJ Bad (the Donut Run and Paths of Destruction); Roofus (the Beer Room); Gable; Amir; Francis; Rains; MUJ; Catfish; and Tim. You guys were there for some of best times of my life: Cancun, Roofus' Cottage, Blue Mountain, Montreal and all the rest.

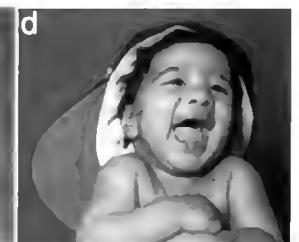

Fraser Buchan

Though hugely inadequate, I want to use this space to thank the teachers who have guided and supported me for the past ten years. Their dedication and passion has shaped my success not only as a student, but also as an individual. Mr. McElroy for setting me straight from day 1, Mr. Birkett for teaching me to follow my interests, Mr. Love for showing me the meaning of passion and professionalism, Dr. Newton for pushing me to write, and express myself, Mr. Ackley for always supporting me athletically, and Mr. D'Arcy, for whom my respect grows for on a daily basis. It is because of teachers that I have grown to love this school. I also want to thank my friends for all of the great memories, but more importantly for all the support and guidance they have given me. Lastly, I want to thank my family, and in particular my sister, for pushing me to succeed, and for making me realize my own potential.

P.S. SPECIAL THANKS TO THE MAJORITY OF THE STAFF INCLUDING DALL

I would like to start by being unoriginal and thanking my family. Mom, Dad, Nini and Bennett I couldn't have done it without you - You're awesome. The teachers at RSGC are some of the best and I can't help but thank some of them: Ms. Wagar thanks for everything! Mlle. Deblois, Dr. Ryall, Dr. Leatch, Ms Hill, Mr. Evans, Mr. Thornbury and the lunch ladies, just to name a few. All have molded me into the person I am now. Friends I have made here at RSGC will stay in my memories always. Parties (Wade's), open houses, prefect initiation, Sr. Soccer, Squash, annex crew-NM, GDT, JF, Cancun, semis, grad room, 'jitz guy jitz', b-days (sink boy), porch siestas, park pounding, 'Woo bee woo', Sappello, mini-sticks, Dale, 'think I frickin' care man.'

SO THIS IS IT!!! The end of a pretty smooth story. What can I say? It's been a great five years & I must thank many people for making this possible. First and foremost, I would like to thank my wonderful parents who have supported me with constant love and encouragement, thank you for believing in me when I didn't believe in myself, seeing the possibilities and solutions during the hard times, and for always being there for me. I'd also like to thank all the staff, especially: Mr. D'Arcy, Mr. Van Herk, Ms. Miller, Mr. Rankin(Suffering-succotash), Mr. Orlando, Ms. Hill & Ms. Wagar. Mad ShOuTz To: PT (Fine FEATHERED friends 4ever, WILL ACTUALLY), AF (I guess so?), AR (WI convos, about our girlies), JA (true friends stick together), Ostap (Friend) BOLO (sex education in accounting) also: FB, SN, SG, A Ford, MUJ, BIG C, FP, CJ, RC, KN, CH & the Prefects. Tracey, thank u for a great 2 years. (143) I'm out ya'll, "Forget about the girl!" & Keep it smooth...

My five years at RSGC have been great. Lots of special moments. Thanks go to my parents, family, Chrissy, and Jenn for being there for me. Geoff, thanks for the nickname you mooch. No more rides for you, monkey! Mario, not much to say without your hair. Amir, AA2? Kevin, known you for way too long! Clynn, hope you get a lot of afternoon classes. Mike, you'll do fine. If I left anyone out, I'll just blame myself since I wasted my space by putting this here. Well, thanks to everyone who made my time at RSGC great. Big thanks go to Mr. D'Arcy. What were we thinking? Grade 11 math in grade 9? I guess I was taking "the other grade 9 math." I survived though, thanks for your guidance and inspiration. Mr. AH, thanks for getting me into university. Ms. Wagar, thanks for all the university help

Ten years, ten long years. Living through Mr. McElroy's threats of throwing us out the window in grade four to Dr. Leatch's inspiring grade six year where we met the wonderful Ferd Berful. Grade eight, the year where yawning and stretching would cost you 80 pushups. Then the Senior years, the years of sleeping. Sushi Thursday, anime, sleep, and more sushi. Thank you Vorpai, Alfred, Maes for making this stay a little more enjoyable. *Vorpai: "Umm yes, I would like a combo I please." Maes: "Food contest, anywhere, anytime. I'm still going to win. The only difference between you and me is that I have eaten my fat man and you haven't!" Alfred: "You're too damn smart for your own good. Thank you Kitsune for staying up till 4am doing absolutely nothing but discuss why homework is pointless, how to implement plan B.PH34r M3!!! h3h3"*

I would like to thank my parents first and foremost. Thanks to: Mr. Love (all your classes were great), Dr. Ska (thanks for everything except the gray hair), Mr. D'Arcy (thanks for the nickname), Dr. Ryall, Mrs. Miller, Doc Newton, Mr. V., Captain Kerr, Mr. Doerksen, Mr. Farrar, Mr. White, Mr. Hannaford, Ms. Hill and the rest of the faculty/admin. The last four years at St. George's were a blast. I'm glad to graduate a Georgian. To the good times: keggers, semis/dances, grad trip (make it a double), bar nights, Moosehead, Kitch - always behind the eightball, ace mishap, and the rest of the adventures. Senior Softball - "No Pants on the Bus." Thursday night baseball. School Trips - NYC - How convenient were convenience stores? Winchester, Catfish. Skits and Assemblies. Classic Rock is Back. Shoutouts: Kitch, Renihan, Ford, CjBad, Usher-bones, Mario, Rains, Godfrey, Rufus, JW, Gordon etc. To my fellow grads: it's been great, cheers and best of luck. *Noblesse Oblige: privilege entails responsibility.*

DW, LPT, ML, AH, JJ, KS, DH, HC girls thanks for all the good times, guys - so many memories, where to begin? From Linton's party to Nat's cottage and "Who clogged the toilet?" All the times have been fun, and at least some of the memories have not been forgotten. Soccer, U16 (best team on paper, yet winless), Senior (should of won the nationals, only a disease could beat us). Lacrosse, 3 Game winning streak! We'll beat UCC. Ashley, thanks for always helping me out whenever I needed it, lots of great times! I'll love you forever! To the teachers and staff, especially D'Arcy, Hannaford, Love and Ms. Hill, thanks for all your help and support, I'll never forget it. To the grads, Caneum & Jitz (Foosball), what a great way to spend the year. Thanks to my family and everyone else for all your love and encouragement, it's been fun!

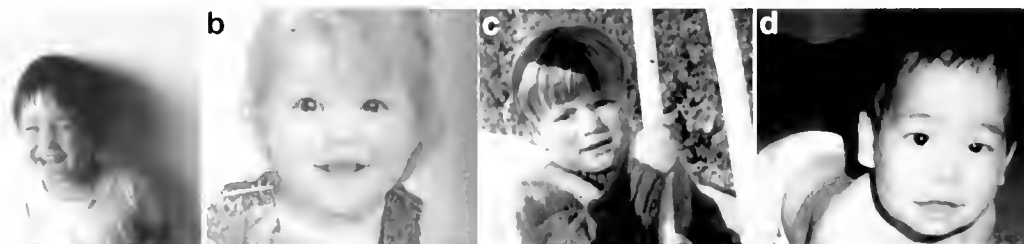

Drew Clark

Thanks to my parents, brothers and sister for helping me through high school. I would also like to thank Mr. D'Arcy and Gage Love for being the two best teachers I have ever had. There are many memories from these 5 years. Parties at Alex and Wade's, semi upon semi, New Year's in Collingwood, summers in Muskoka. GRAD TRIP! And as I remember these moments I hope that the Georgians I enjoyed them with will all stay in touch next year. It is scary to think that I'm actually done High School and onto University already because I can still remember my first day at St. G's in grade 9 so clearly. Good luck to next year's students, OAC was tossed because they were doing nothing at all in their last year. Keep your stick on the ice!

I came to this school not wanting to come here, and now I finally get to leave. That's not to say it hasn't been fun. I don't think this was the place for me, but I'm happy at how I've turned out. I am very thankful for the opportunities this school has given me. For making the last five years of my life so great I would like to thank a number of people. Mom & Dad thanks for all the food, money, love, and advice. I have to thank my dog Duke. Of course my close buddies is what made these past years fun, they don't deserve abbreviations but I have no room, JP, MC, VII, SPII, TG, JLB. All the great teachers that showed passion and desire to teach and help, Mr. K, The Big Herk, JL, GL, Dr. N, Dr. I, CD, RDB, & SW. Sorry if I forgot anyone. That's it. *It's not the size of the dog in the fight, it's the size of the fight in the dog* -Mark Twain

It's been five years and I can't think of a better place to have spent my high school career. I would like to thank my family: my mother, Lynne, for keeping on track and staying up all those nights, my father, Doug, for always keeping my head on straight, Lori, Dodie and Grandpa Ted - for all that they have provided for me. I would also like to thank Mr. Love, Mr. D'Are, Dr. Newton (aka C-Newt Dogg), Tito, Ms. Wagar, Ms. Hill and Dr. Leatch (aka Dr. Bald). There are a few guys that have stuck with me the whole way: Rufus, Pat, Rains, Kitch, Rat, Amir, Powell, Bruce. To all the girls that have passed through or stayed for a pint.

Megs, my beautiful sweetheart, I love you with all my heart; you complete me.

The person I would like to thank first and foremost is my Grandma Teddy, without her support, my time at RSGC would not have been possible. I would also like to thank my parents and my girlfriend Jenna for all of the unwavering support they have given me these past few years. Since joining this family in grade 10, I've had a lot of exciting and strange experiences here - especially in my OAC year. Random Stuff; Batterazizes, Hey Man, what's with all the hostility?, two of my many nicknames: Biff (now tattooed) and Joey Crack, the unforgettable and numerous Lunch Trays hits, Rugby, after parties, Pita Pit and all around sketchiness. Best of luck to all the graduating class and thanks for all the great memories.

10 years, 10 long years I've been at this school. So what drops of wisdom have I to give to the younger generations of Georgians, to those that come after me? Well, here are some things I've learned over the years: Duet tape can fix anything. Branksome, Havergal, and BSS all have drive-throughs. Ride the Wave. Dogs don't eat homework, printers do. Keep evil elves away from Teletubbies. Snuffelufagus is an icon. Grade Nines are all hentai baka. Anyone younger than you is a rat. No running unless death is imminent. Maes, Yoshi, and Vorpal ownz j00. When all else fails, refer to Plan B. Murphy's Law. Sorry for 'I phin' and 'Goap'. No, the flaming ball will not work. Adios amigos.

I'd like to thank all the staff that helped me through the last seven years, especially: Mr. Reid, Mr. Latimer, Mr. Keenan, Mr. D'Arcy, Mr. Hannaford, Dr. Leatch and Mr. Rankin. Thanks to the grads of 2002, it has been an amazing year. Special thanks to Catfish, Renihan, CJ Bad, Ford, MUJ, and TE. I have so many incredible memories that I will never forget. Cancun 2002 was crazy. Finally, I'd like to wish the graduating class the best of luck in the future.

It's been really frickin fast here. I don't have a lot of words, so let's begin with the thanks. Thank you Mom and Dad, the money was well spent, Mr. Reid, Mr. Birkett, Mr. Keenan Mr. Coop, Mrs. Miller, Mr. Love, Mr. V. Mr. D'Arcy, Dr. Leatch, Mr. Schreiner Mr. Holdsworth, you made school fun and useful at the same time. Guys, it was fun. My friends know the good times, no need to waste words here talking about them. I'll keep in touch with some of you, the rest have a good life, we'll probably meet later. Library was fun, same with teams. I don't know what else to say.

I would like to thank my parents, David and Elizabeth and my Uncle John for their unbelievable support and guidance, I couldn't have done it without you! I would also like to thank my grandparents for all the opportunities they have presented me. A special thanks to Mr. Love; you're simply the greatest Sir. Guys, I didn't forget about you, all those hours in the Beer Room, the hockey convoys FP, PT, CM, and CC (BSS), the Montreal Trip AR, GB, JFW, Bambaleo, the Blue Mountain escapades, Cancun, tequila volleyball, coco bongo night. MK & AF you guys are jokes, MW I enjoyed all the spirited driving, PC can't wait to see you in 20 years. A special thanks to GC, UJ, and AR for being awesome friends and keeping me in trouble. Cheers boys, it's been Fun! Alex (Rufus) Edmison

I have been at RSGC for seven years now, and I will not forget any minute of my time spent here. It's going to be sad to leave. I owe so much to so many people. I'd like to thank all the teachers who have made this enjoyable. Thanks Mr. D'Arcy, Mr. O, Mr. Rankin, for believing in me and making me laugh, Dr. Leatch for the life lessons and friendship, Ms. McPhedran for inspiring me to pursue a career in science, Mr. Siewert for helping me love a dead language, Mr. Lee for being a great lacrosse coach and a true friend, Mr Doerksen for all the encouragement and teaching, to all the staff, to my family and friends for sticking by me and helping me every step of the way. The past five years have gone by quicker than a blink of an eye. From the good old days of Mr. Pengelly and Mr. Orlando to the days of Mr. Lee and Mr. Lee, St. George's has shown me plenty of good times that I will never forget. Special thanks to Mr. D'Arcy (You won't be hearing from my sister anymore), Mr. James Lee (Gentlemen, don't use the shovel) and Mr. Sarellas (Big Guy, Selwyn forever). Now to all my friends: Kitchano (You're still a hobo); Mike C. It's funny how you don't realize how much a certain thing means to you until it's gone. I'm in my graduating year and I'm just finally realizing how much I love this place. I'm one of the luckiest guys in the world to have been able to attend such a spectacular school; and I owe the whole experience to my parents. Thanks Mom and Dad for your needed love and support. Mr. Love and Father Donkin; you have both been excellent mentors for me over the past couple of years. Boys, I would not have wanted to do it with out you. We've had some amazing memories (well from what we can remember from the intoxication haze over our eyes 24hrs day, after all we ARE from St. George's). What can I say? It's been a really great five years here at RSGC, which I'll undoubtedly remember forever. I'd just like to express my gratitude to all the great teachers I've been lucky enough to have a chance to learn from, a special thanks to my parents, and an even bigger thanks to all the boys: MW (thanks for the rides), Frodo, CJBAD, Jamal, RC, UJ, JFW, smooth, GB, AD, AE, CG, GR, and everyone else. Thanks for all the amazing times; Cancun, the semis, Montreal, and many others. Good luck to you all in whatever the future brings.

We've had some amazing times and for that I thank my Dad, Bros and all the Grads for one hell of a high school experience. Cheers to all the boys who have made this memorable. CJ Bad, Ford (that was one hell of a tackle man), Bolton (no common sense), MUJ, Rufus, GDT (bartending, keggers + misplaced fluids), Jamie, Silny and many others it's been a blast. To the sick times in The Beer Room, convoys (GO LEAFS), Montreal (Peel Pub + SS, the \$400 weekend), various cottage experiences, Grad room (JITS GUY JITS), the Joyce, Gettysburg, Semis, Babie "math" "the extremists" and all the other crazy experiences. To all the teachers and staff who have actually taken the time and really taught me something: Dr. Ryall, Mr. Paulin, Ms. Miller, Mr. Rankin, Dr. Leatch, Mr. Murray (KCS) and hopefully the soon to be Dr. Love. There's still more to come. And kids *"If you don't want to be here, don't come to class. Nothing's going to happen...it's St. George's."* (a teacher)

My years at RSGC can all be summed up with one word: Popsicle. I came to this fine establishment at a skinny short guy. Now I'm still skinny but I'm a bit taller. There are a few people I would like to thank for getting me through high school and into university. I am just going to go ahead and list them off: Barry, my parents, Sanchez, Guillermo, Mr. Rankin, Mr. Holdsworth, Mr. Paulin, J.K., G. Love, Mr. VH, Doe Leatch, Dale, Taylor Shermbic, and THE NEWT. Playing ball hockey on the uneven Tarmac. Representing the school at early morning debating tournaments. All of the teacher skits I was fortunate to be a part of (and never got expelled for!). It is memories like those that will be forever etched in my mind and made the past seven years so enjoyable. I can't begin to express my appreciation to those who guided me from a shy kid in grade 7 to one who ruthlessly imitated the Headmaster in front of 250 people. But I will give it my best shot. Thanks to some of the best teachers around. You not only provide some great material for humour, but care deeply about your students. Thanks to my family (dogs included), who put up with me throughout my high school career. Finally, thanks to the grads. It may sound cliché but a school is made not of bricks but of people. Though my career at RSGC has been cut short with my "fast-tracking" and the double cohort year, I feel comfortable making the next step in my life to university. Making the choice to fast-track was very difficult for me. It meant leaving my friends, family, and most of all a comfortable life behind me. Through this decision it was the support from family and friends that really kept me sane. I know it's so cliché to thank my Mom, and Dad but I gotta do it anyway. THANK YOU! I'd also like to thank some teachers such as Mr. Reid, Mr. McFroy, Mr. Wade West, Mr. VHL, Mr. Sarellas, and Dr. Skalinski. Why Dr. Ska when he piled homework on me constantly and called me BTL? Cause he taught me to put some real effort into school, and deep inside I know he really isn't as mean as he likes to think he is.

Terrance Ho

What can I say except what a year! Thank you to everyone who helped make this year's Grifter one of the best ever, even those who rarely met deadlines, namely: everyone. Thanks to all my friends, especially the ones who took the 'Z-Run' with me (the distance from the start line to Adam Donald's car.) Andrew and Graham, thanks for backing me up in the occasional debate and helping us bring home more than a few pieces of metal. And now for the freakishly long list of teachers: Drs. Leatch, Skalinski, Newton and Barlow, Mistern Keenan, Love, Stewart and Birkett and Mrs. Miller. These people are part of what is great about RSGC (note that almost half of them are gone or going.) Thanks to Mr. Hutton, Miss Hill and Fr. Donkin for great conversation.

Ethan Hoddes

Coming to RSGC has proved to be one of my greatest decisions. I came to a school that would provide me with everything I needed for my future and more. I have to thank all my family for their endless support and giving me the opportunity to attend this great school. My mother and grandmother are my inspiration - thank you for all the sacrifices you've made. The staff are amazing and I cannot thank them enough for everything they have done to teach me and help me succeed. To all the students who I've had conversations and made friends with, I wish the best for you. To all the grads - it's been a great 5 years and it was a pleasure to share the memories. I also want to thank those who have already graduated, because they were great leaders during my time in St. George's. Good luck everyone!

I have been at RSGC since grade seven and I will never forget a second of it. I don't think I could have had as much fun anywhere else. The seven years I've been here feel like one. At RSGC I have made my best friends and met my favourite teachers. Mr. Love was the first teacher who pushed me to do well. Thanks Love, if it weren't for you I would still be a lazy bum. Dr. Newton is one of the most interesting people I've ever had the pleasure of being associated with. Sir, I'd love to have a beer with you in five years. Dr. Ryall got me interested in subjects I didn't find interesting. Dr. Leatch always listened to what I had to say. Sir, after you retire you should become a standup comedian. I will NEVER forget high school because of the following guys: B.M., M.H., B.C., S.G., J.P., G.R., F.B., A.C., J.M., P.T. and last but certainly not least W.S. (party at Wade's). I will never forget any of you guys. Party at my house in ten years!

Many thanks to all the grads who have provided me with so many great memories: Renihan, Rains, Rufus, Taylor, Cook, Amir & Victor (Hobos), Pauly T (Gitz Guy Gitz, Cinnabon), MUJ (Usher-Bones), Phil (Catfish!), Ronsooon, HSIUNG, Ostap (Cancun), Chan (Smoothness), Buchan, The Prefects and to everybody else!! Thanks to all my teachers especially: Dr. Leatch, Mr. Love, Mr. D'Arcy, Dr. Newton, Dr. Ska. Thanks to all the coaches and teammates I've had over the past 5 years, I'll miss playing for RSGC!! Things I'll remember: Grad Trip & Prefect initiation (from what I can remember), B-ball in Montreal, Senior V-ball Champs (GR, RC, CH), Intramurals (Go West!!), Gitz games (GDT, AF, VC, AC, PT), Semis, Skits, Dale, U15 B-ball Champs (FB, BM, SN). Special thanks also to Chris, Ashley & Kirsten for many great times and memories. Most importantly, thanks to my parents and family for their constant support and confidence in me throughout my five years at RSGC.

Jordan Klein

I had an amazing time at RSGC. After being captain of the varsity basketball team for 3 years I decided to dump my head cheerleader girl friend who resides at St. Mary's College and decided to go on a business venture. After 3 years I managed successfully to market sombreros as the new "in" style. But I was falling out of #1 position in the school academically so I had to sell my Fortune 500 business to a homeless man for a penny. After being drafted into the: NHL, NBA, MLB, CBA, CFL, NLL, English Premiere League, and the WNBA. I decided to pursue a career as a gynecologist my true passion. This is the pinnacle of my life, part student part gynecologist.

"It is not the critic who counts, nor the man who points out how the strong man stumbles or where the doer of deeds could have done them better. The credit belongs to the man who is actually in the arena, whose face is marred by dust and sweat and blood, who strives valiantly, who errs and comes up short again and again because there is no effort without error and shortcomings, who knows the great devotion, who spends himself in a worthy cause, who at best knows in the end the high achievement of triumph and who, at worst, if he fails while during greatly, knows his place shall never be with those timid and cold souls who know neither victory nor defeat." - Theodore Roosevelt; I would like to extend the sincerest and deepest thank you to all those who have supported me through my years here at the College, you know who you are. It's been a great three years at RSGC. Lot of good memories, May 24 in Muskoka, chez Pari, semi's, Tarragon plays, Final Curtain, basketball practices that would never end...

Shout out to west enders, ballerz (even those that still play below the rim), the rugby players (don't sellout just 'cause I did) and to all the guys that made high school tolerable, even you Big B.

To the teachers that gave me an inch even though I took a mile, to El Newt whom I've only seen lose it once, to the big guy thanks for the COD, to Dr. Leatch that teacher that I had once, Mrs. Hill for never giving me an infraction I didn't deserve, the Big Herk for giving some competition in 3-3.

OOOOHHHH MAN! High School is over. My time at RSGC has been great and I'm glad I decided to come here. Big thanks to Mr. D'Arcy for everything he has done for me (best teacher ever). Thanks to: Mr. Doerksen for trying to turn me into a Mathlete (lol), Dr. Ryall for finite (one of the best classes ever), Mr. Lee (DR CR), Mr. Evans (great coach) and Mr. Love (you know West is the best!). Thanks to the rest of the faculty and administration for keeping me on track. Does Hal Hannaford ever stop talking? What is this? Garbage! Q107 is the best station. Long hair is cool. Be nice to Dale. Long Live The Annex!

Thanks for everything.

"You get what you put in, and people get what they deserve" - Kid Rock

Thank you to all the people who have helped me in any way during the past five years.

From academic probation to honor role, I finished. Mr. Orlando you turned me around. Hannaford, from KCS to RSGC thank you. Mom + Dad, you are always the best. Thanks for everything. Ash + Jenn I couldn't ask for two better sisters, you rule! But now for the Georgians. Pauly, Bruce (your grandparent's house, Barbados Cindy), Kennedy (you're nuts guy), Wade (party at Wade's), Brad, Alex, Keats, King. You all made the trip through St George's a bumpy but fun ride. Sr. soccer, Big T and Ostap, you made the start of school exciting. Hockey, Doc Leatch's D-line, Lacrosse, keep the tradition. Jonsey, Zelly, Atkinson, Roebuck, Gr 10 Babie, Roy boy, Semis, grad room, jitz, school trips, Dr. Ryall, Doc Leatch, Mrs Miller, Mrs. Hill, you covered me always. Ms. Wager thanks for the office seat, you would win the fight. Last but not least I tobroke it has been fun

I can't believe it's been five years. It's funny how time manages to sneak past all the ups and downs, tests, ISPs, physies, trips, danees, and parties. These past years have been the best of my life and I would like to take this chance to thank the many people that supported and believed in me: first of all, my mom and dad who have worked their butts off to garner my tuition; my brother (you know what I think of ya =); Mr. D'Arcy (Thanks for supporting me since day one and putting so much of yourself in your classes; you will always be my favourite teacher!!); Mr V-H and Ms. Wager (for listening to my endless prattling about universities); the Grads and 12s (too many to name with a 150 word limit); and all my junior school kids! It has been fun while it lasted, thanks for the ride. Out.

Andrew Potts-Robinson

Although I know it's a cliché, I have to say it anyway: the last five years at St. George's have been the best of my life. When else are you privileged enough to do almost anything, but lack the responsibility to have to give a \$#!&? Don't get me wrong - adolescence and high school aren't a joke; it's not so much about the material learned in class, but a journey of self-discovery and an important step in life. I learned a lot about myself and the world in which I live, and I could not have done it myself. Thanks to all those that have helped me along the way: my parents, my friends, my girlfriend, and all the dedicated members of the faculty - HH, the language and English departments, a certain social sciences doctor, and, of course, Big Red (it takes love to set out and write your own textbook!). Your interest and enthusiasm has been inspiring and I too one day would like to do something that I truly enjoy. One last thing: it's not whether the glass is half full or half empty; just drink up and order another one.

Francis Powell

The past 5 years at St. George's have been amazing. There are many people to thank for this experience, my family who supported me through all my highs and lows. My teachers for all of their guidance and support. You have my sincerest thanks. To all my friends and the memories we share. You have made these years fly by. The Beer Room crew: AE, CC, PT, CM, AF, AR-blood was not drawn. Blue Mountain, convoys, BSS, Cancun, AF- I will never forget you. AM-thank you for the support you have given me. IRM-you have been there through the good times and the bad, and no matter where life takes us you will always be my boy. To all the grads: Good luck and keep in touch.

"If you're not living on the edge, you're taking up too much space." - Colin McMaster

Thank you all for the memories.

Ostap Prokipchuk

To all of those who taught and inspired me the most. And those who've shot on me, and hit the post.

To those who've said blyat, gvalt, and zayobat (MT, AP), and the one who said (niice, mint, earamantias, teef, and not tonight(but maybe next time) Pauly T, you're the best.

To the pot-bellied guys teaching us health, and how to get some action. And the nice lady cutting me some slack and not giving an infraction.

To the one we all love and know as Gage.

Don't worry sir, it's only the start of a new page. And finally to Mama, Tato, Chris, Matviyko, and Tetyana.

I am in debt to you all, as I leave 120 Howland.

I only spent three years at R.S.G.C. yet it feels like it's always been my home. Having been taught by such great teachers, and to be aided by such a well-rounded staff has truly been a privilege for which I will always be thankful. I would especially like to thank my parents, who have always pushed me and had faith in me, even when I didn't give them good reason to. I am also very grateful to my family for their constant support. Finally, to my friends:

MUJ (brrr...ah kakaka), AH (Beer Room until I'm too old for stairs), MK (ooo ooo ah ah), PT (never lacking in Geeness), CC (Convoys and the Bullet), AI (Cackm, long live the pipe!), GR (grounded?), MC (so rigid), PC (subway stories), JIW (OCD), FP (blood was drawn), CJ (not so bad), all the ladies (especially DP and CM), and all the others with which I've shared a beer.

All right, seven years at school here and I finally graduated (hopefully). Clynn, Kitchen, and Ronson - FINALLY Senior volleyball champions. Carter and Ford you know I own you both at squash, so just give up. Long live Senior Softball and the Bow tie "Chicks dig guys, with bow ties". I'll remember the crazy times, which coincidently always included liquid courage: parties, semi's, sitting alone in my basement (remember its never drinking alone, God's always with you). Any teachers who let me get away with things I probably shouldn't have, thanks. Mr. White and Dr. Newton look me up when I'm in the Major Leagues, Mr. D'Arey "STOP IT!", "Guy, I'll kick your aSS"- Paul, Bruce yelling, emergency sleepovers, Pigott when I'm 30 I'm still going to call you all the time, Pebble Beach Golf, Leah- My high school sweetheart, I'll remember you always. Thank you to everyone who made these years special, I'll remember all of you (and if you become a millionaire you bet you'll be hearing from me!) -so-

"This is not the end, nor the beginning of the end, but perhaps the end of the beginning." A great man said that once, so I'll start by thanking a great man. Thank you Dad, you have always been there for me. Mom, you have made me proud to be your son. Didi, thanks for helping me find myself. Uncle Bubli, thank you for being my second dad. Thanks to the teachers that made the difference, Mr. D'Arey, Dr. Leatch, Mr. Love and Ms. Miller. To all my brothers, BC, MH, AC, JM, GK, DC, GR, PT, and FB, we are truly kings of debauchery. Parking sign vigilantes, May 24 boozehounds, Cancun(NUTS!), wade's I mean rubbishe's kegger, semi madness, chief kegbeer, truck full of mud, Alex's endless new year's parties, frat keggers(F%&k!), Roadblock in Rosedale, Prefect initiation, lip sync(What lip sync?), Here's to always making our presence known boys, Cheers!

"And I will never, ever, ever, ever grow so old again" --Van Morrison--

It's hard to think of what to say, as these are the last words anyone will ever remember you for. My Thank you: Mom, Dad, Vorpai, Gabriel, Alfred and Kiqu; for everything you've done, and all your love. My Advice and wisdom: Enjoy yourself, don't live for school. There are infinitely more things to worry about than how you did on that Chem Lab. Life is an experience, experience it, (Words to live by). If you gr-mace enough people will think you're bitter. Live for the moment, when the future comes there's nothing you can do about it anyways. Love and be loved, it's the most important thing in life. Never accept the "norm," challenge what you know. This is rushed as I have a last period spare and I want to go home. so what do I want to say? Not much, in fact nothing really. The last two weeks of school have gone the way of 'week old pizza' left on my kitchen table after a night of hard party-ing. The only advice I have for any students who actually read these quotes is 1) take a Doc Leatch class, they are the best and you actually might remember something you're taught. 2) Play rugby, it hurts you and you get to hurt others, that and it's a good excuse for getting bad marks; just say you got railed in the head. 3) Watch Army of Darkness it's a good movie. Lastly, when school is getting you down just remember, *Beer is proof god wanted us to be happy* and to quote F. Teofilovici *You are never wasting time, if you are wasted all the time.*

Patrick Taylor

I am proud to be a Georgian. I am proud to have been a part of something so unique. As a grade seven student, I neglected to realize the significance of *what* school I attended; school was school. However, as a graduating student, I have now matured enough to entirely appreciate the depth of my fortune. Royal St. George's is so much more than a fine academic institution. It is a second home: a unique association of knowledge, decorum, duty and friendship. As I take one final step, I graduate from a place that has nurtured me for seven years. I will miss it dearly, but I will never forget it. To all my teachers, for their endless support and encouragement, especially Dr. Leatch, Dr. Newton, Mr. Rankin, Mrs. Miller and Mr. D'Arey, my advisor and mentor, to whom I owe so much, I thank you from the bottom of my heart. To my boys: Cale, Mike Chan, U-J, Amir, Edmison, Rains, Kitchen, Powell and JFW, thanks for the good times. Keep holding it down.

Chloe, you have given me more than I could ever have asked of you. I love you. Mom, Dad, Jeff, Ryan, Granny, Grandpa- Thank you for your invariable support. I love you all. *Success is an attitude before it is a reality.* —Judd Moldaver

To the greatest family, Mom, Dad, Miran, Joe THANKS for supporting me and always being there. A huge thanks to the #1 advisor Mr. D'Arey, Mr. Hannaford, Mr. J Lee, Mr. Reid, Both Thornbury's, Mr. Sarellas, Dr. Leatch, Dr Ryall, Mr. Rankin, Mrs. Miller (there will always be a seat up at the front for me) Mr. Ackley, Mr. Van Herk, Dale, Ms. Hill, Ms. Wagar ("Pauly Man"), Mrs. Hall, Mlle Deblois (my Bronx Tale bud) and to Mr. Evans (who can only play handball against a curb) Thank you sir for teaching me to always give it my best. The Boyz: Abraham, Buch, GDT, Potts, Renihan66, Wade (Maf's guy Maf's) Brad (think I care man), Kitchano (guy I'll buy that Cinna bun place), Longo, Big B, Peeceegs, Keating, CJ Bad (BATERAZIS!) Ken, Kinger (late night JITZ, I'll dust you guy) Na Ostap Na (your mint!), Money C, Johnny M (how do you spell Bachelor?) Malex (your crazy, but still the Greatest) MUJ, Ford, my bud Silny, UI5 Soccer Champs, all the boys in Blue (YORK 4ever), staff still can't beat us in Ball Hockey (1-0-1), legal and illegal JITZ GUY JITZ, Get out of my faaceee man, and All my Armenian Boys. I can hardly believe that I've spent ten years of my life at this school. The time just seemed to fly by. First and foremost, I MUST thank my parents who are the best for sending me to this school, and for believing in me, thank you. I also want to thank some teachers, bear with me, this is going to be long: Mr McElroy, Dr. Leatch (10 things...), Mr. Reid, Mr. McMaster, Mr. Wade-West, Mr GOODENUFFORJAZZ Martin, Mr. Rankin, MR LOVE SIR! (football SIR), Dr. Ryall (for helping me pass ALL my math), Mr. D'Arey (for believing I could pass compsci) TheNewt (Dr. Newton), Mr. Jamieson, and Mr. VanHerk. Finally, memories. Far too many, but here are a few. Grad trip, the music trips, the RSGC keggers, all the parties, the shady operations with Jer, Rubin's basement, Heisy's basement Rubin (NO P.R.), Olive, Pineapple, Dav, Mike, NOOO, Lu, Arian, John, Christina, Helen, the gradclass, and anyone who I forgot to mention. My highschool days are finally finished! When I first came to St. George's in grade nine, I thought the day would never come when I'd be reflecting upon the last five years of my life with a diploma in my hand. But here I am, completely speechless. I don't know where to begin; I have so many memories, and so few words to say them in. Here are just a few: Rugby, Hockey, Montreal, Cancun, Beer room, the bull, frat house, semis, Brrrr, Ak-k-k, convoys, and models. I'd like to thank Miller, D'Arcy, Love, Rankin, Ryall, Somerville, Leatch, and Sarellas for always believing in me and for being great teachers and even greater friends; Wager and Hill for putting up with me; AR, PE, AE, CJ, CC, FP, MC, MK, GB, CG, PC, WS, AC, AF, JFW, and the rest of the grad class for the great times, many laughs, and for always having a shoulder to lean on...I'll always remember you guys; and most importantly my family for their love and support. *'Never think of the future. It comes soon enough.'* - Albert Einstein

Well, I really don't know what to say in this thing. It's been a good 4 years and for that I can thank... myself for one, parents for sending me here, and my brother Tyson (cus it's nice to mention siblings). Also, "big up's" to all of you who have ever taught me... good job! Thanks go out to my friends; you guys know who you are! We've had our good times and our bad times, and that's a lot of times. I would also like to confess that I have always had a secret "schoolboy crush" on both Sra. Deblois and Ms. Uhre (who may not know who I am, but maybe someday we can change that...?) I'm sorry, but I just can't help it! It's been a great time at RSGC and I wish everyone a happy ending. *'Pa's got things for you to do, and Mother wants you. I know she does.'*

It's been a savage good time at St. G's. I'll be glad to go but sorry to leave. My greatest memories come out of RSGC. There were the grey fleeee pants that I wore for three years without any notice. Madison's has always been there for weeknight studying. CC never let me fail. There was John, dirty brown and Moose. Gitz filled the gaps of spares and classes that I didn't want to go to. Savaging is intense, especially in the Annex and Etobicoke style H-core. To all those from back west in the Et-Tobe-I-Cokes keep it up hardcores. Parents, it meant the world, Mr. V, Doe Newt, classes were the awesome. Miss Hill you've been nothing but the best. Everyone left lighten up. St. George's isn't all about work, keep the spirit alive and real. Finally Ms. Pacman is a great game. Peace

When I started at RSGC in grade 9, I wasn't sure what to expect. Everything was new to me. Fortunately, it didn't take long for me to get comfortable and feel at home. All of my teachers have inspired me to work hard and succeed throughout the years and for that I thank you. For all of those times when school got in the way of racing, or racing got in the way of school, and for the support I have received from everyone, I appreciate it, it means a lot to me. The commitment that the faculty have to the students at RSGC is outstanding. They have prepared me for the challenges that I will find at university next year and I feel confident that I will be able to succeed. You are all friends that I will never forget.

LATE ADMITTANCE SLIP (please return to Ms. Hill)

I want to thank my parents for funding this long endeavor and my grandparents for allowing me to stay with them for the past couple of years, without all of you I would have never finished. I would like to thank Dr. Leatch, Dr. Newton, Mr. Love, Mr. VH.. These teachers are the main cornerstone to St. George's and I thank them for all the help they have given me over the years.. All the parties at Wade's and the Leaf's "sessions" at my place, Barbados, grad trip,semi's.... I had a blast. Shout out to all my friends at St. G's: Mike, Wade, Mulvihill, Keating, Kennedy, Brad, Fraser, King, Cook, Potts, Pauly, and Renihan. I had a blast - thanks a lot guys!!

LATE ADMITTANCE SLIP

This place has given me the best and worst times of my life - and I'm grateful for all of it. No matter how many names I write here, I will forget someone so I apologize in advance. Thanks most of all to the Grads - I could list all your names but I only get 150 words! You've all been there through thick and thin. (Cancun was great and Penny's Motel was, well memorable to say the least.) I've known some of you longer than others, but without a doubt you're all a part of who I am. Same goes to the teachers - the best group of people a student could possibly wish for. D'Arce, the Love-Gage, G-Mars, Big VII, the Senses, SWagar, Father D., C'Newt Dog, Red Fox, Tit-uhh Mr. Lee, WW, oh boy too many to write - Thanks a tonne!

Ladies and Gentlemen, take my advice - pull down your pants and slide on the ice!

LATE ADMITTANCE SLIP

It was fun, 7 years and 4 Skalinski courses ago I came to St. George's. There was no way I could have prepared for this journey; the nice thing is now I feel I am prepared for my journey ahead. Thanks to some of the teachers that made it so fun; The Glove, C'Newt, Big Red, Dr. Ska (even though we had our differences), Hal (my main guy), Doc Ryall (golf team Nazi), The Big O., and Ms Hill. I will never forget any of you. A shout out to all my friends from the past 7 years at RSGC: Big B, Keats, Fraz, King, Pigs, Brad, Sandy, Renimahoon, Roscoe, Potts, Kitch, UJ, and of course Mr. Sahni. To my mom, thank you for everything and I mean EVERYTHING, to my dad thank you for always believing in me. A special tribute to the girl who managed to put up with me while loving me for the last year and a half, my girlfriend Janna Miller. Always remember my friends.

This was the first season for the Under 10's and that is always tough to get used to. However these rising stars rose to the challenge and headed into the final tournament at UCC with confidence and potential. They fought long and hard, beating teams with amazing skill, and made their way into the championship match against Sterling Hall. After a solid pep talk from their coach Mrs. Cook, the boys ran out on the field and were hungry to win. Unfortunately our guys lost a close match to Sterling Hall and ended up in second place overall. Great Job!

The Under 10's pregame warm up, just before they destroyed UCC.

Under 12 Soccer

The Under 12's this year, coached by Mr. Ackley, had a variety of rookies and veterans. In every game they gave it there best and most of all they had fun. Their record this season was 5 wins and 7 losses.

Compared to previous years, the Senior Soccer team did not have a record season. For the past two years, the team consisted mostly of veteran players; however, this year's team included a lot of rookies. The team went into the season knowing that competition would be fierce, and that opponents like SAC, UCC, and Ridley would present a tough rivalry. Against these teams, we fared well, and played to the bitter end of each game. In the end, the team's record stood at 2 wins, 9 losses, and 1 tie. This was a very memorable year for the team; we stood beside each other through thick and thin and felt that we had accomplished something great by the end of the season. No one player stood out as a 'star', rather everyone worked together to attack the season with an unrivaled ferocity.

The team in all it's glory!

After a very promising start to the season our team seemed to falter at the last minute, losing several games by the closest of margins.

Back from last year and providing the nucleus for the team were Nick Carravetta and Cam MacNicol; both contributed talent and leadership.

All the players made a great deal of progress with serving and position on the court. In spite of the losses during the season and in the play-offs the morale and enthusiasm remained high.

The boys started off the season with minimal knowledge and expertise but evolved throughout the season into a skilled, consistent, volleyball machine. Team captains, Derek Hepburn and Chris Hoad, led the team with newly developed skill, inspiration and die-hard determination. Setters, Hepburn and DeGeer, ran the offense using the hitting forces of Andrew Bolton, Mike Butler and Chris Hoad to build points. The huge blocking forces of Stefan Vali and Alex Johnston along with consistent serving of Gaelan Love and Jamie Smith proved to be an obstacle for many of the opponents throughout the season. Coach Algarvio is extremely pleased with the progress the boys exhibited throughout the entire season and looks forward to the beginning of the next year's season.

The 2001-2002 season was a breakout year for the Senior Volleyball team. Led by our Coach, Mr. James Lee, four third year veterans rounded off our starting lineup making us unstoppable: filled with veteran leadership and experience. Early in the season, we faced the hard-hitting team from UCC.

However their hitting was not enough to match the skilled spiking of our all mighty power hitter Ronson "Soon" Chan. For the rest of the season, teams were unable to beat the impressive blocking of Mike Kitchen and Aaron Mitchell, and helpless against the finesse-setting of Clynn Hsiung and James Patava. Some great hustle and beautiful digs by both John Lucas and team captain Geoff Renihan rounded the team.

After an impressive burst of heart, RSGC came out the victor (keeping our unbeaten streak alive.) For the first time in school history, RSGC got the honour of hosting the Finals. Our first match was against Pickering College, who we defeated handily

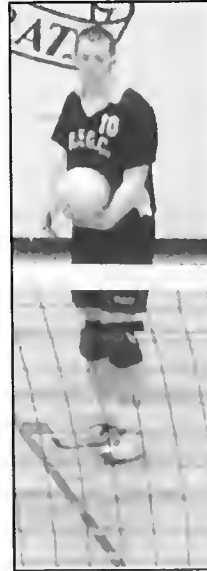

(3-0). Then it was time for the true test: the finals. We faced CDS to see which team would go home as Champions. After losing the first game, we battled back to take the next three games and the Championship. It was a great year, and I'd like to extend our thanks to a great coach: Mr. James Lee.

The Look of Victory!!!

This year, the junior school has two new faces coaching the Cross Country Team. Ms. Bajin and Ms. Uhre rounded off the coaching staff, lending their experience and time to the team. This year, the team was small but had a great deal of heart. Through rain and shine, these dedicated runners practiced, each attempting to reach their personal best. They were definitely successful as the team finished 5th place overall in the Under 12 category. Congratulations to everyone and thanks to Ms. Uhre and Ms. Bajin for being dedicated and positive coaches.

This year the Under 12 Basketball team was a hard working team that put a lot of effort into the basketball year. Mr. Ackley was fantastic as our coach. He taught us how to work as a team, move the ball around, motivate each other and to play solid defense. The team worked hard on all of the aspects listed above. Over all the basketball team had a year with few losses and some wins. On behalf of the team we would like to thank Mr. Ackley for making it a good season and for making it fun.

Under 13 Basketball

The under thirteen basketball team had great success this year. They won the RSGC Annual Invitational Tournament against Armbrac Academy(Halifax), Selwyn House School(Montreal) and St. Andrews College(Aurora). In addition, they finished in fifth place in the National Independent School Tournament in Vancouver. Lastly, they competed hard in the powerful ISAA league, only to fall short to Hillfield Strathallan College(champion) in the semi-final. Strong performances came from guards John Harewood and Thomas Wade West. Stephen Bradeen and Carl Noel were also outstanding in the forward positions. Overall, a fine year.

With only a handful of returning players, the U 15 team took some time to gel as a unit. Many players brought experience from the U13 team but had trouble adjusting to the more physical level of ball at the U 15 level. With 30 players trying out, there was clearly no shortage of interest or enthusiasm on this squad. We had moderate success during league play, beating our closest rivals, UCC and Crescent, in close-fought battles. Poor shooting percentage throughout the year prevented us from making the playoffs (the team finished 5th of 11). The highlight of the season was the BSS Invitational Tournament in Lennoxville, QC. The team won two of three games and clinched the Consolation Final thanks to a spirited performance from tournament all star Michael Deeks (who broke his foot scoring the game winning points.) Every member of the team experienced some degree of improvement during the season - hopefully this will continue as the majority of the team moves up to the U16 level.

Y O R K

I'd like to thank the boys in BLUE for another successful year and for giving it their all every time we competed. The year was filled with ups and downs, but in the end the boys showed York pride and represented their house with enthusiasm. Some highlights during the year were four top ten finishes in the Terry Fox Run. Don Pyper(1st), Andrew Ford(4th), Mike Usher-Jones(6th), and Zach Bush(7th). A 2nd place finish in house drama, with a Best Actor award going to Steve Woodiwiss. Co-captains, John Mulvihill and Paul Ternamian, led York to another Indoor Ball Hockey Championship, beating Winchester with ease. Next Year the York line up is filled with great potential from the Grade 9's, 10's and experienced OAC's who will do an amazing job to lead the way. Once again I want to thank all the guys in York especially the senior's for helping out and showing everyone what the best house is all about.

VIC, VICTORY, victory is our battle cry, these were the murmurs in assembly as the house standings were announced and Winch rose victorious. This year has been our finest ever seen, marked with our usual overwhelming spirit and participation as well as a crushing defeat over our arch rival West in the psycho ball finals. Winch has always been the rowdiest house and dominated for as far back as I can remember. However, our success was not achieved without a sense of remorse. This year we bid good-bye to our most honored and celebrated member, Mr. Love. Sir you have been the heart and soul of Winch for almost thirty years and much of our success is owed to you. You're simply the greatest sir and we will miss you dearly. To all those returning to St. George's we trust you to carry the Winch torch and keep it burning for the years to come. We had a triumphant year, although a bunch of slackers would rather admit to defeat and succumb to the ever decreasing house spirit than burn a few calories by yelling their lungs off at house events. "GO WEST, WESTSIDE" and "THE WESTSIDE IS THE BEST SIDE" is what we WOULD hear if it were not for the house captains skipping assembly 90% of the scheduled time. BUT the west house drama team finished first due to an incredible performance by Greg Johnson and Matt Burns among others, and third in ball hockey. It was a good year fellow westsidians, and remember: **knowing is half the battle.**

'A' Band Tour of Quebec

We had a wonderful 5 days in Quebec. We started, as some of you know, EARLY on a Saturday morning, and then had a marathon bus ride to Quebec City. The weather was mighty cold! The following morning, we played at the "Classic Music Festival". The "A" Band and the Stage Band, went very well, and the boys in both groups were awarded a rating of "Excellent". We had a tour of the Old Town that afternoon and finished up at the Museum of Civilization. The next morning we had a lightning tour of the Quebec Citadel, and then hit the road for Montreal. We arrived very late for our performance at St. George's School of Montreal, but they graciously accommodated us, and the boys went on to play a fine half-hour concert. As mentioned in the Friday File, we

had groupies afterwards. We went to see the Canadiens Senators game, including the return of Sergei Koryuk from cancer treatment. If the Canadiens won, they would clinch a playoff spot for the first time in five years. They won! We will always remember the walk down the Ste. Catherine after the game! Many thanks to Mr. Barchuk and Ms. Uhre, and thank you to the 'A' Band parents for supporting the Band. I hope that the boys have many happy memories of their visit to Lebel's program!

Once again, Dr. Death has had another party. This time it was at the home of Gary Martin. A small start up group they have formed to help out the school people at many interesting venues. They have also been invited to be the first one up at the beginning of various assemblies just before the 10:00 o'clock hour to kick in. In the opinion of this humble journalist, Dr. Death is really somewhere (where, no one is quite sure but they have the support of the entire school behind them).

"I found that Burlap Bags, like Interview, requires a little thinking to try and understand it. But my interpretation of the play's goals may be different from Len Peterson's or Richard Holdsworth, the director. That is what partly makes this play great, the fact that it can be set aside from other typical plays, and can be re-interpreted inside everyone's mind.

"The basic plot is centered on the eccentric lead, Tannahill. The story begins set around two old blokes, Manitoba and Finley, both residents of the same building house, and the same as Tannahill's. They are pondering and marvelling at the left over belongings that they found in the dead man's apartment. The real goals of the play come out here as the ensemble of actors start to take you on the twisted journey of Tannahill's writing. From six men trapped inside a piano box, to every character wearing, or craving a Burlap Bag, it is here where I think the play's real message begins to come out. What is a burlap bag, and why does everyone wear one? Burlap Bags represents the masks we wear in public and in life, that hide our inner feelings and who we really are..."

By Matt Burns

"Burlap Bags was a thought-provoking and eye opening play deeply rooted in abstract, Brechtian and Artaud styles. The Director's vision was clearly presented through the grit and determination of the cast, as they strove to pose to the audience questions about society, challenge and change. This contrasted well with the exciting pace of Interview. Both productions were modern commentaries and dazzling representations of the world through the eyes of some unique individuals. This theatre-goer was most amused when Abba started blasting from the speakers and the green turtle-necks busted out the wild Swedish dance moves. Good work, to all."

For the 2001/2002 school year, a challenging play by Mordecai Richler was chosen and performed by an extremely talented cast on three evenings, in Ketchum Hall. The cast selection was perfect and Daniel Geneen, as Jacob Two-Two did an outstanding job! Mrs. Girvan worked her usual magic as Drama Coach and Co-ordinator (a daunting task!) with the help of Ms. Barchuk who managed to come up with amazing props, and Mr. Darvasi who did a super job with set and stage management. Even our very own talented Father Donkin got into the act by designing and painting the backdrop! Mrs. Sandy Phillips and a group of very devoted and handy Mums worked endlessly to ensure that each and every one of our outfits were just right. What would we do without you? Many, many people worked together as a team to put together a fabulous, funny and entertaining performance that was enjoyed by all. I have been so lucky to have the opportunity and pleasure to pursue my love of acting through our school plays here at RSGC. All in all, yet another tremendous success!

I'll say that again, "Two" times!!

Love, Kerr, Birkett: A Tribute

In Pictures

Mr. Gage Love 1974- 2002

Text of the speech given to honour Gage Love at his retirement reception, Wednesday May 15th, 2002.

Hello. My name is Stephen Beatty. I am a proud alumnus of Royal St. George's College, and a former student of all of the honourees tonight. I'm very pleased to say a few words on behalf of my friend, Gage Love.

Normally, one would congratulate Gage on his retirement, but that would presume that he is currently working. This, as we all know, is not the case. With Gage, it never seemed like work.

Gage Love has been bouncing around St. George's for 25 years. It's hard to believe that in all that time, he's never had a bad day. Bad haircuts, perhaps. But never a bad mood. Although, he has been known on occasion to get a little "pissed off", you know you could always get a giggle out of Gage.

My own memories of Mr. Love are many. In grades 9 and 10, we longed to get into his History classes for grades 11, 12 and 13. Gage had his priceless collection of *Continued on Page 126 ...*

Mr. John Birkett 1972 - 2002

A Tribute to John Birkett, delivered by Douglas Jamieson, Wednesday May 15th, 2002.

My introduction to John R. Birkett was indeed a novel experience. Of course I knew John by reputation, such was his stature in the St. George's community - a rather complex mixture of classical scholar, gifted linguist, dancer, artist, musician, grammarian, chef and flower arranger par excellence; in sum, a sort of Mr. Chips on steroids.

I was naturally fairly circumspect when dealing with this curiously multi-tasking wizard. My initial attempts at getting acquainted ending in my being deeply puzzled. Our first "conversation" contained references to a "chorus sans singing", "your basic", "march et manger", "dejeuner devoir" and "Pierre Colline". I had no idea whatever what this man was talking about. Add to this the fact that he did *Continued on Page 127*

Mr JJ Kerr 1968 - 2002

A Tribute to John Kerr, spoken by Evelyn Miller before an admiring crowd in Ketchum Hall on Wednesday, May 15th, 2002, in Honour of his Retirement from Royal St. George's College.

Ladies and Gentlemen,

In seeking to perform this most humbling of tasks - to offer an adequate tribute to my dear friend, mentor and colleague, John Kerr, I spoke to John and to others. I had some questions. How did John come to be at St. George's in the first place? Why did he stay? What had he been doing here for the past thirty-five years? Had he really taught eight thousand students? Or only a third of that number? Did he remember all their names?

I found answers. And some significant truths emerged.

First I realized that it was impossible to separate John Kerr from St. George's. Did the school shape John, or did John shape the school?

SETH

Matthew Hayles, Grade 11

My grade five class managed to get our teacher fired. Or so Seth told me. I only later realized that he lied to me a lot. Seth had been a friend of mine since Kindergarten, when we used those blue and white connecting sticks to build some object of our juvenile fantasies. We remained in the same class, through three different schools, until the end of grade six. Throughout those eight years I absorbed a plethora of baby-powder-white lies. Even now I have difficulty differentiating between what is true and what Seth told me. A large proportion of my teenage years has been spent weeding out what I took for granted only a few years ago.

Not that any of it mattered, we were having fun. Once, when I sat cross-legged in my sand box, he buried me up to my waist and my parents took a picture of it. When we went tobogganing for my birthday party at Withrow Park, I plowed over top of him, which we all had a good laugh at, even after he claimed that I had fractured his skull. I did it again in grade four, when he walked behind me on the swings and my penduluming rear-end sprawled him out flat on his back. When he discovered devil-sticks in the same year, I just had to buy a pair, and I did,

quickly becoming better at it than he was, although I was never quite as good at expressing this. On our last day of grade six we sat on the ramp facing the REDASS wall and discussed how a spaceship traveling faster than sound for a long period of time would eventually gather a large enough sonic boom to destroy a planet simply by entering its atmosphere.

This is not to say that life was complacent. It never is when you're at an age that doesn't yet require shots of coffee in the morning. We had our fights, our petty-squabbles and our who-did-what-first's, but over all it was a pleasant time. The lowest point of our friendship was probably when he and a certain girl had been enlisted by the teacher to clean the chalk bag. They came back laughing their heads off with a crazy story about how the chalk bag had exploded in Seth's face and he had been covered in white powder. And as hilarious as this was, I couldn't help but notice that she was having a fun time with a different guy. So, with my primary-school reasoning I decided that the best thing to do was to prove that other girls could have fun with me. This involved slapstick comedy to attract the attention of my now-very-attractive

board-cleaning partner. Looking back, I'm not sure if Seth even knew he had offended me, and since I forgot about the whole incident by the next morning, life continued as usual. But, the important thing is that we managed to get our teacher fired.

And, as kids are prone to do, we did it happily, and with no sense of compassion for Ms. Walker. Then again, how could we, our delinquent minds had no comprehension of love or romance, beyond that of our grade-school crushes.

Love is important to this story, because, unlike us, Ms. Walker had an immense amount of it. It just wasn't very stable. She had been through at least three husbands, possibly more, and I'm now sure she loved each of them. It only occurred to me recently that she never spoke badly of them. But, in my naive youth I had no comprehension of this. So, whenever she finished telling us a story involving husband I, II or III, Seth, I and a bunch of others would recess behind the hockey arena, play REDASS, and make incredibly witty, incisive remarks.

I don't know why we did this, and I probably never will. It made perfect sense at the time, when we were awash in the flood of juvenile emotions. I guess I thought she was a bad

teacher, although I can't think of a single instance to illustrate this. As far as I know, she taught us the material as best she could. And she didn't do a bad job of it either.

I actually have very little recollection of Ms. Walker, besides a memory of a slightly wrinkled, middle-aged face, and an intense dislike for it. That and her hand cream. In the end it always came back to her hand cream. As I said, we had little comprehension of love back then, and what we did not comprehend we had no interest in. Now the hand cream, that was something else. My eleven-year-old mind understood hand cream quite perfectly. What I couldn't work my mind around was why Ms. Walker needed so much of it. When we were working, she would go to her rich-brown desk, lean back in her chair, and apply hand cream. I could see her perfectly from my hexagonal group-table, since I usually ended up facing her. I wish I could say there was some benefit to this, that by facing her I avoided the glare of the sun streaming through the huge bay windows, but unfortunately, I can't. Our windows faced north, so the most light we ever got was reflected from the semi-detached houses lining the street just beyond the fenced-in

field and playground. The playground was great fun. A field of sand, enclosed by foot-high walls of wood on all sides, out of which rose a contraption of wood, metal, tires and red plastic that would have been confusing to anybody but a childhood eye. While the teachers prowled around the outskirts of our area, the class would chase me all over the twisting poles and chains that was our pirate ship-monster-obstacle course-alien world. I say class, although a more accurate portrayal would be our two groups that made up the segregated world of grade five. Sometimes the guys chased me. Sometimes the girls chased me. It was much more enjoyable to be chased by the girls, especially the aforementioned chalk-bag-girl, although you would never have gotten me to admit that, short of heated shish kebab skewers and painful toenail extraction.

But, of course, the teachers would always end up ringing those dumb brass bells to call us in, and I would stagger out of the boy's bathroom and join the line waiting outside. There were two recess entrances to the school, one was at the front, and was rounded-up by Ms. Palmeri, the vice-principal, later principal, who made me cry on my first day of grade six.

The second line was at the side, and was where a girl admitted she wanted to marry me and then told me she had said it on a dare, a tactic that thoroughly confuses me to this day.

Once all the stragglers were lined up in the hallway, Ms. Walker would open the massive-relative-to-me blue door, and we would hang our accoutrements in the cloak room at right, and go sit in our segregated groups. I, of course, sat with Seth, and we conspired, bragged and lied the way children do. Why we did this I can only guess at. Looking back, it seems totally ridiculous to claim to know how to divide, only to find out that in grade one, $36/36$ does not make 23. But of course, he continued to claim to know things, and I continued to know them too. It was this type of behaviour that in grade two earned him the title "walking encyclopedia" and me the "walking dictionary."

That was how I spent much of my childhood: sitting at our table, scheming schemes and boasting boasts. And in the end, we managed to get Ms. Walker fired, along with her three-plus husbands and oceans of hand cream. Or so Seth told me.

Harlem Nights

Diederik Heisey, Grade 9

I stood on the sidewalk and waited
Exhaled.

Ground my stub into the pavement.

The sounds of laughter.

The tinkling of the piano.

Caressed my ears.

Beckoning me to enter.

I pushed past the man at the door
Into the dim, smoky room.

Two steps down.

The clinking of glasses,

The bubble of champagne.

A festive mood.

It's a Harlem night.

The combo picked up the beat

The sax wailed.

The coronet moaned.

The bass kept the pace.

A lively tune.

Toes tapping,

Bodies swaying.

Frenzied.

Free.

The blur of brightly coloured cloth

As the ladies twirled on the dance floor.

The interplay of the black and white tux.

Squeals of delight.

It's a Harlem night.

Change of pace.

A sultry horn. Seduction.

They cling and then retire.

The evening's been long.

The ladies swing into their wraps.

The gents gather their hats.

Two steps up.

In the cool night air.

I stand on the sidewalk and wait
Exhale.

Grind my stub into the pavement.

I whistle a tune.

As I walk down the street.

It's a Harlem night.

The World As We See It

Matthew Lovering, Grade 7

It is strange, almost how we see the world.

Things happen but yet we still move on.

Our blood is spilled through acts of war of which small children are not even aware.

Hidden danger lurks in the shadows like an ambush waiting for the right time to strike.

Again and again the church bells ring for those who fight not only for themselves.

Wolves Howl

David Axworthy, Grade 5

Wolves howl together

Lightening crashes

They run in the night

The Woman With The Red Hair

James Patava, Grade 12

I happened across a woman named Ruth, someone who never could be called uncouth.

The library is her domain, where she struts with her red mane.

From North Toronto is where she hails, but RSGC is where she truly regales.

A tribute to Ruth is what this is for, because "Yearbook is my life" is now a phrase I deplore.

Just A Joke

Masked as a joke, but intended to mock
The double edged sword strikes my
body feel my stomach drop
A laughing matter this joke was not

Words shatter and crumble
As they try to make way across my
vocal chords
I can feel a quiet rumble
My presence is becoming less than
humble

My eyes glare like light from a prism
I was taught to strike first and think
later
When attacked about Judaism
I now ask, is my pride worth activism?

I have discovered this as a minority
It is something I must handle myself
Outside the knowledge of authority
Two hand motions proved my priority

Let's Get Together

Let's get together.
As two people, of two cultures, who live two separate lives
Which cross paths

Let us rap,
About the rapture of our people, and this so-called hate
We have for each other

Born as a child,
Who understood only what he was taught be his elders
I have grown

Raised as a man,
Who can come to his own conclusions and dissolutions
Without any help

And You too,
As the beautiful being you are, you listen only to yourself
Stubborn as a bull

Let the hate,
Surround us rather than come between us, let's walk and hold
The hand of the enemy

The Boy Who Sits Beside Me

Angry,
He sits beside me growling.
He is gradually filling with silent rage
The ethnicity of others matters to him,
yet he is more ethnic.
Even more so than the rest of us around
him.
So angry, yet so sensitive, he is always
sorry.
Sorry for his angry emotions,
even when they are not expressed.
Angry.

From Left, Alex Edmison, Pat Taylor, Mike Usher-Jones, Philip Chow

What can possibly be said about the excitement of the first day, the community service fair and TTC photo day? These events are so important that personally, I think it is an outrage that they have been forced by our oppressive editor(s) to share a page. None the less, the community Service Fair was a big hit and Mr. David Lee has been grinning ear to ear ever since. Our friends at the TTC visited us again this year and were kind enough to equip us all with student cards. Fortunately, we were there to document the event.

The sun was beating down on High Park once again this year as the whole of St. George's assembled for what was promised to be an exciting day of events. The band played, the runners ran, and Mr. Farrar sold illegal donuts from the trunk of his car. The gun sounded and they were off. What some call the most important race of the year had begun. Defending his title and glory, Donald Pyper had a slow start. It is rumoured that somewhere around the first turn, Hal Hannaford, in a desperate effort to once again place in the dirty dozen, attacked several of his fellow competitors with his shoes. When they finally crossed the finish line, the results were as follows...

Oktoberfest

Jamie Lino. Oh God this is gross, but I must shovel it in
....GULP..

This year's Oktoberfest was better than ever. With countless sausages, live music and as always, lots of fun games there was never a dull moment. The line up for the sponge throwing competition was seemingly endless. Although there were the prefects who in turn got soaked one by miserable one. There was a major dilemma among the sponge throwers, whether to hit Shahrooz Nikouei or the epitome of sports himself, Mr. Evans. As seen on the picture to the right, Mr. Evans was the more 'popular' candidate to receive a soaking from the vast number of students. The band and the sausages were a great success, with even a little drum playing by Mr. Hal Hannaford. And as always, the strudel eating contest was the highlight of Oktoberfest. With two participants from each house, the battle for stuffing-it was a close one. There was even a casualty, Mike Chan couldn't keep it together and quickly found solace with a near by trash can. The winners were Jon Karantonis and Jamie Lino.

Halloween

When you get a detention, you have to meet with HIM!!!! Mr. Shum, the dark angel

Halloween, the time of year when students and teachers join together to dress up to show off their make-up mastery and, perhaps the most important thing, to scare young children. With a costume contest for an all expenses paid lunch with Mr. Hal Hannaford himself at the prestigious JJ Mugs and all around dressing up of the students and faculty, what more could you ask for on Halloween?

The costume contest had a wide variety of ideas, from the short-shorts of Jeremy Gross' 70s jogger to the devious gangsters of Mr. Schreiner's advisor group. But all those couldn't compare to Ms. Hill's hockey team (winners of the contest) with an honorable mention going to Mr. Lee's impression of Mission Impossible's Tom Cruise.

Costumes that didn't make it were:

- Ralph Wiggium's "Idaho"
- Cross-dressing school girls
- Dressing up as Mille Deblois
- Mrs. Miller Wanna-Bes(Hippies)
- Teachers dressing like students

Remembrance Day Service

On November 8th, 2001, St. Alban's Chapel was filled with solemn reflection as Remembrance Day was observed. Because of the events of September 11th, the service took on a new meaning for a generation of Georgians: who had never seen the horrors of war. Father Donkin led the dignified service, which culminated in a procession down the main aisle in which black cloths were draped over the pictures of deceased war heroes. This ceremony helped to give a face to war and to help people understand that many of the people who died were the age of some of the students in our school. The service was poignant and memorable.

Thursday, November 1st, St. George's hosted a benefit concert. The concert was a tribute to Mr. Cloud, a junior school student's uncle who lost his life in the terrorist attack on September the 11th. It was also a way to raise money for the New York Education Fund set up to aid victims of that tragedy. The evening was headed up by Music Steward, Brian Tod, and was a great success. The arrangement featured trumpet players John Abraham and Chris Roscoe playing the Last Post, conducted by Mr. Martin and the Grade 11 Concert Band, conducted by Mr. Wade-West. Both bands were very well received and the whole school looks forward to hearing more performances from each of them as the year continues. The whole evening was a wonderful and appropriate concert that was enjoyed by all.

The Ladies of the Saucer preparing for the swimsuit preliminaries

On November 17, RSGC had the pleasure of hosting the 2001 Saucer Debating Competition. The competition involved students from a variety of schools, all represented by the crème de la crème of the debating world. The resolution was: B.I.R.T. The media has a moral responsibility to society. This resolution was a new step for the debate, as it was the first time that a Saucer Tournament had revolved around the idea of ethics. Unfortunately, at the last minute, storm clouds began to brew over the competition. Two unnamed schools decided to remove themselves from the competition just prior to the start time. In true Georgian spirit, Mrs. Miller rose to the occasion and supplied two hastily assembled swing teams consisting of: Matthew French (recipient of the Spirit Award), Amir Fardshishch, Sam Bailey, Jim Kapehes, Jonathan Abraham, and Mike Usher-Jones. These two swing teams, combined with our regular team (consisting of Borden Rhodes, Robin Gainer, and John Seitz). The keynote speaker was the Rev. Max Woolaver, who gave a rousing talk on the topic of ethics. Thanks to the Reverend for a sensational speech. Other important contributors to the day were Andrew Hepburn (Head of the Speaking Union) who emceed the event, and of course Mrs. Miller, who managed to overcome adversity and host a truly enjoyable event. Thanks to the kitchen staff for the delectable lunch, and a special thanks should go to all of the moderators, judges and timers for a job well done. Because of a scandal in the tally room, RSGC did not win (Lakeland College triumphed), however everyone present seemed to enjoy themselves.

Haughton: "See that box girls, that's where I keep my BMW keys."

Girls: "oooh, Mike..."

Chow "Hey Renihan, your eyes are looking a little red "

In Mid-September of 2001, the tarmac was once again a hot spot of juvenile delinquency as we celebrated our first dance C.O.M.E. (Come enjoy our magical Evening)". After some scandal regarding the title of the dance ("what does COME mean?") everyone was paid off and things went off without a hitch. The usual characters were there in full form (i.e. Phil the Ice Cream man) and the police didn't have to drive too far when trouble broke out: they were already there!!! The Prefects, once again, outdid themselves...at least until next year.

As, is traditional in early November, chaos once again reigned supreme as RSGC descended on the Boulevard Club (conveniently located...well, nowhere really). After some scandal regarding the name of the event the latter half of the name was dropped and "Good Vibrations" was settled on. Upon arrival at the swanky soiree, all buses were cleared of all things alcoholic by the powers on high because of some issues with glass objects spontaneously hurling out of buses with some of the first arrivals. Besides the small setback of a sober semi, a good time was had by all. Thanks to the prefects for a night of good, clean, wholesome fun

THE YEARBOOK PRESENTS...

An Adventure in Food With soon to be **Head Prefect, Jay Jolliffe...**

1) One afternoon, Jay was sitting in Ketchum Hall enjoying his Ritz crackers when all of a sudden, he came to the bottom of the bag. "Oh No!" Yelled an anxious Jay. What to do? Luckily, Dale was nearby opening and closing the windows while cussing at Jay out of the corner of his mouth. "Hey you doofus, why don't you eat some Cheesey Pots?" Dale yelled. Jay being the learned man that he is knew that kids go Potty over cheesey Pots, and was at first put off, but wanted some none the less. He quickly ran to Stan's Variety and Grocery store where he frantically searched for a box of Cheesey Pots. Much to his chagrin, they had expired around the time Hitler was forced out of the Rhineland.

3) Having heard from a close friend that eating Peanut Butter and running is a brilliant and unbeatable combo Jay decided this was the only way to go. Jay jogged around for three hours that day. Stopping at every Rabba he could find in the Greater Forest Hill area.

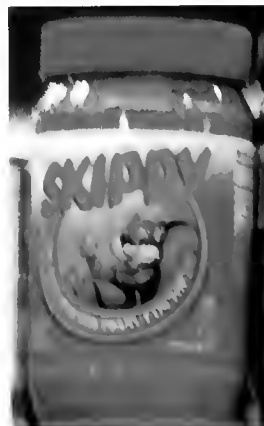

STANLEY'S VARIETY AND GROCERY

2) Now it was time for Jay to panic. And panic he did. He cracked out his cell phone and called his mom who quickly informed him that there was a falafel feast just down the road. Jay took off on foot and arrived at the palatial Gazelle in time to be swarmed by two half clothed middle aged entertainers named Candy and Tanya. Assuming this whole scene to be a bust Jay focused his efforts on some Peanut Butter.

4) Jay learned a lot that day. But it wasn't until he ran out of money and found himself begging on Howland Ave. for money to feed his addiction that he realized something must be done. It was time for an intervention. Strung out and full of peanuts Jay knew what to do...

Looking back, Jay says he's grown as a person through the experience, and feels it will only aid on his giving back to the Georgian Community. The End

Intergalactic Robotics

Well it's all over now.... kind of. We'll be doing some stuff throughout third term and summer but the actual competition is over.

So how did the tiny team from RSGC do? Well, the competition is actually composed of a number of things: Web site, documentation, video, etc... and most importantly the Robot. I'm not sure how we did on everything else (they haven't sent us anything yet) but our robot, Bushakalamazoid III did really well.

Provided that we missed 2 out of 6 heats due to malfunctions, and we had to overcome a dozen problems during the competition we finally got the robot to working order in the last heat. Our robot was amazing in the last heat and we scored 90 points! (the best robot with the highest score in the whole competition, scored 500).

To have a small team of about 4 core students who worked on the robot with only one mentor and NO workshop at school and NO experience... we did amazing. Compare our results to schools like Turner Fenton (champions) with 80 students or Havergal with 50 students and 3 teachers and 6 mentors, we

succeeded in doing quite a bit.

Our robot beat Havergal because of our stellar final heat by 5 points. Havergal and Korah should be noted as a great help, they helped and supported us a great deal. Although we are "bragging" that we actually beat Havergal they really helped us and we wouldn't have gotten nearly as close as we did if not for their help. And I'm just comparing us to them a lot because they have a bit more experience, more adults and a bigger team! (plus we gave them 15 points by accident). So, I think we came in about 12-14 (not sure the exact number) out of 26 in terms of the robot competing. Throughout the whole competition we were around 19th and really improved as we went along (and as our robot finally passed the debug stages).

We'll be coming back next year with a smarter and bigger team. It was a monumental challenge to just get a robotics team to compete, and we did it pretty well! We had a ton of fun, got little sleep but learned so much... Thanks to the team and to the teachers who supported us!

Leadership Conference (L2K2)

Mike Love and Rob Gleadow working the refreshments, gaining experience for their future careers.

The L2K2 National Leadership conference, "Leadership at a Higher Level", which RSGC hosted from Thursday, February 21st to Saturday, February 22nd, 2002 was another testament to the liberty and support that we, the students, are privileged to have at the College. Anything is possible, and it sure was for a small team of dedicated individuals: Jonathan Abraham, Chris Roscoe, Kevin Smith, Jay Jolliffe, Linton Porter-Taylor and Brian Todd, who were in charge of all aspects in the organization process. Through the theme

of Servant Leadership, and the unique set of speakers, workshop leaders, activities, etc. the 75 attending delegates from across Canada were given an opportunity to learn, not only the characteristics of the underlying theme, but also from each other's experiences and leadership qualities. But, as stated before, all this could not have been possible without the overwhelming support of the College, and more specifically Ms. McPhedran and Mlle. Deblouis. Thank you sincerely, once again. **Mark Longo.**

Beach Party

I bet you are asking yourself... "Why on earth would we make a 'Beach Party' complete with a sand pile, freshly BBQ'd burgers and Hawaiian shirts?" Well the 100% truth is that I really do not know, and I even talked to our Head Prefect Mark Longo and discovered that even he didn't know why we were doing this in sub-zero temperatures. But something that I do know about the beach party was that the line was long, the burgers were plentiful and Mr. Van Herk was found hiding in almost every picture that I looked at!

Is it just me, or do these guys look like they are having WAY too much fun at the BBQ?

When you finally got into Gage's class, the curriculum was equal parts History and fun. Sometimes it was like there were no adults around to tell us what to do. We had parliamentary debates, and held round-robin wrestling tournaments. We learned about John A. MacDonald, and had sing-alongs of John Jacob Jingle Heimmer Schmidt.

As I look back, I'm amazed at how much History we learned. Gage is a great lover of History and this was transparent to his students. To this day, I can tell you about the Battle of El Alamin, the end of Czarist Russia and the Tet Offensive. I can also tell you that Lawrence Taylor was the greatest Linebacker ever to play football. Gage taught me these things. Gage taught me to write an essay. He taught me how to study for exams. Gage taught us all that school can be fun. I am a History teacher myself, now, and I'd like to think my kids look forward to my classes the way I looked forward to Gage's.

Gage's secret is obvious to me now. He never grew up. He loves doing stuff like wrestling tournaments, and, more importantly, he understands that teenage boys need days like that.

Everyone in here has special memories of all of our honourees. I

remember Gage as a History teacher. Others looked to Gage as the man that got them into University. I think all of us share a common memory of Gage. And it's not in the classroom. Your place is on the tarmac, with the kids, generally sticking close to the opposing team's net. Not one to spend a lot of time inside his own blue line was Gage. Old gloves, sharpened hockey stick, sweats and, of course, your tinnie. My shins hurt just thinking about it.

I imagine at a time like this, you will assess your career, Gage. With your indulgence, I'll add my 2 cents. This job must have agreed with you as you are clearly, immune to the aging process. As, I should add parenthetically, are JJ and John. What's the deal with that? A little spooky. I know your colleagues are lined up to assume your spacious office, but they will miss you as a touchstone to the past. As an aging alumnus, I will miss knowing all of you are here. Gage, you're leaving this school better than you found it, and along the way, you've made 25 years worth of students better people because of the education you've helped give them. Gage's lessons: Enjoy yourself, do what you love and let your students see that you love it, tell your students you care about them through your actions. I will say about Gage, the very best thing one can say about an educator. You always put the students first.

But, the highest compliment I can give you Gage, is you made it look fun. That is success in any career, by any measure. Enjoy your retirement, Gage, and congratulations on 25 years of fun.

Mr. Kerr

Continued...

Now, this is not quite a chicken-and-egg proposition. Remarkable though this may seem, we do know that St. George's pre-dates John Kerr - by three years. The college was three years old when John, fresh from the Faculty of Education, got a call from Jack Wright. It was 1967.

Having attended an independent school himself, John rather though he'd like to teach in the public system. But there turned out to be something very attractive about (in John's words) this "funny little place." So John signed on.

That first year, he taught grade 7 Science, grade 8 English and grade 10 History. Time went on and John thought he'd likely move on, but - though he made a few forays into the outside world (Like teaching night school at North Toronto collegiate) - he continued to be happy at St. George's, and, well, time went on.

What did he do? John has been a teacher of Science, History, Latin and English. He has been Head of the English Department in the senior School; he has been staff representative (twice) on the Board of Governors; secretary to the Alumni Association; he has served in various capacities on executive committees of the Alumni Association; he has edited the school newsletter; he has been a coach of gymnastics, cross-country and downhill skiing; he has coached the swim team (until being knocked out by a basketball); he has coached softball and put together the yearbook.

Then there are all the odd little "unofficial" roles John has assumed over the years, some of which

include: during the early years, helping to maintain the physical plant - like turning on the furnace when it mysteriously turned itself off; building sets for school plays, fashioning new pews for chapel, designing programmes for school events...and a general disbursement of wisdom. John has shared his gifts most generously.

When I asked John what he would miss most about the school, he said - the people. Well, that fits. John has always been a person with whom I could share sad stories about colleagues or students, because he is compassionate, funny stories, because John has a rich appreciation of that which is droll about the doings and sayings of Georgians of all ages - but he has never been one to laugh at another's expense. In addition, we have all been the beneficiaries of the balance in John's character. He is a man of common sense and sound judgement.

At this point I must say thank you to Cathy, who has been inextricably bound up in the Gordian, or, I should say, Georgian, knot that is the relationship between John and St. George's. I've sometimes thought that Cathy knows as much about the workings of Georgians and St. George's as John. And that is considerable. Certainly, behind every great man there is a wonderful woman, and Cathy has been partner to the warm hospitality and love for and interest in us all that is distinctly "Kerr."

Now, to return to where I began. It is not possible to separate our school in its formative years from the influence of its longest serving members, John Kerr among them. May we continue to honour their legacy.

Thank you, John.

Mr. Birkett Continued...

it all while skillfully disemboweling 2 red peppers, stuffing them with a sort of light salmon mousse (topped with fresh chives). And offering all in the staff room a slice of pineapple upside down cake he'd whipped up with the 7's in "domestic survival", and you can imagine how I felt - rather like Martha Stewart locked for eternity in a totally empty room! John invented multitasking and then doubled it. He has been active in his fraternity since university days, served in prominent positions on the volunteer committee of the National Ballet for some 15 years, assisted in the annual ball of the National Ballet School, been heavily involved in the life of Trinity College, U. of T., Chapel, pursued musical interests that have taken him to Nashville (Bronco Johnny B.) sung in the St. George's college Choir, served as de facto organizer of just about everything here, including presiding over the school's most popular club for aspiring young chefs, arranged the coffee, arranged the tea, the canapés, arranged the flowers, arranged lives. And, while doing all this, served as a full-time mentor, colleague, surrogate uncle, friend and teacher to countless adults and most especially boys, for twenty-nine years. Twenty-nine years.

In the meantime of course I learned a few things- his unique mixture of languages - especially the novel use of French, an enduring puzzle to us all, though I have managed to gain a smattering of "Birkettese" over the years - Pierre Colline, for example was Peter Hill, our chaplain at the time, I have yet to get a handle on some of the more complicated phrases. Perhaps John will produce a reference book in his off time. I was once tempted to ask, like Alice in Wonderland, "What's the French for Fiddle-de-dee?" But he'd probably know.

Before taking up his life at St. George's, John had already enjoyed a variety of postings from the exotic two years in Ghana back to the more homey life as a student at Western thence to the sylvan setting of College Lac Terrain, I mean Lakefield College, for 4 highly productive years. Then came a crossroads of perplexing diversity, the main arteries of which were diametrically opposed - one offering a career in interior design, the other St. George's where in those days at least interior design considerations were limited to whether or not portly staff members could squeeze between the drink dispenser and the wall to get at their lunches.

In his own words, John "Tossed a coin, St. George's lost!" so how have things changed here as a result of this dynamic presence? Well for one thing, the art work is a lot more elevated and placed at the proper height. But seriously, it has had an inestimable impact on the boys of St. George's. I asked several of them what do you think of when I mention Mr. Birkett? Some of the answers, freely offered: "He's tough but fair." "He knows everything!" He talks a lot but he's interested in what I have to say too." "He's a laugh." "He's fantastic." "He's really something." With praise like that from the world's greatest critics, John Birkett is not in need of testimonials from anyone. But I can't help adding my words of praise, too. And neither can my colleagues - "A great man." "A fabulous teacher" "unbelievably dedicated." "A vicious, die-hard defender of St. George's College."

Among our Alumni, John is a legend. They continue to delight in his unconventional manner but are especially touched that he know them all - remembers them all, and is genuinely interested in them. Of course, we all know that John's

staggering memory for people and the things that are important to them is an awesome phenomenon. - And, has also spanned a few irreverent recollections in which some have imagined that John knows the balance owing on the mortgage for so and so's property in Port Carling!

John is direct. He is a devout Anglican who takes the words of the Prayer Book to heart - that we "should not dissemble nor cloak 'anything.'" He's certainly not shy when it comes to expressing his opinions - on a vast range of issues! But he is not a complainer; he is a doer. His criticism is always constructive, coming as it does from his deep love of this place and his desire to make it as great as it can possibly be. This college is "his son" and he a devoted father.

John Birkett is so complex a character that I am unable to even begin to describe what he means to this place nor indeed what he means to us all collectively and as individuals. John has striven all his life to give everything to his students, wanting them to blossom not as offshoots, but as thriving individual, fully-realized young people. "Speak in French when you can't remember the English for a thing and remember who you are." (Jabberwocky) "The true teacher defends his pupils against his own personal influence. He inspires self trust. He guides their eyes from him to the spirit that quickens him. He will have no disciple." (Branson Alcott) No disciples for John Birkett perhaps but legions of inspired and grateful young men and boys and a host, who as long as they live will utter fervently as we do this evening, "Thank you, Mr. Birkett."

This year there was a Bible study group at the school, small in numbers but serving a purpose. The purpose of the group was not devotional, but to explore the Bible as literature and as a cultural influence. The participants would ask questions and the group would answer them. We discussed themes, languages used, events and characters, ancient Near Eastern history and philosophical ideas.

It is hoped that the club will gather momentum and attract larger numbers and continue for next and subsequent years. The club met on Tuesdays and Wednesdays.

The 2002 band tour included a tour of the Eastern European cities of Vienna, Prague and Budapest. Under the auspices of Mr. "Gmar" Martin, Mr. Siewert and Ms. Somerville the group of Georgian way wards set out across the Atlantic, landing in Amsterdam and then transferring to Vienna. This city had a long history as the capital of the entire Austrian empire. So, after we had recovered from our long trip from Toronto, we headed out to Schonbrunn Palace. This palace was essentially the "cottage" of the Habsburg Emperors, although the size and splendor of it would not lead you to this conclusion. We toured through the interior, as well as the gardens that surrounded it. It was an impressive first stop on the 2002 band tour. We had a chance to display our own musical talents as we played in the first performance on the tour. The concert was located in a spa outside the main city of Vienna. It was an excellent first performance that left Mr. Martin scrambling to find another piece to play when the crowd wanted a third encore - which may have had something to do with the complimentary cigarettes being offered to the audience.

Budapest was the band's next stop. Gmar's brainchild "Dr. Death" regaled the masses at the Café Imperiale, and partied long into the night. We stayed in the club for most of the evening, leaving only when it closed. The next day began with a tour around this wonderful city in which many beautiful artifacts were observed.

After Budapest was Prague, the long-standing capital of the Czech Republic. An ancient city, the band was given the fortune of playing in one of Prague's central cathedrals. After much sight seeing (some of which involved watching a show in which a man made a horse sit down - see picture) the band prepared for their triumphant return to Toronto. With only one or two international incidents, the 2002 band trip was a success. Thanks to the hardworking teachers who organized the trip, and especially the band, who managed to stay in tune...most of the time.

These young scholars have mastered the art of mind battling and the strategy required to defeat our opponents in the Toronto Secondary School Chess League in the South Division: A round-robin tournament where five players from each school meet head-to-head every 2 weeks. And they're good looking too!

-----CAMERA CLUB

Ohhh man, I guess it's that time of the week again, where you dress me up in ladies clothes. (Mr Siewert's pup)

The Photo Club has only a few but dedicated amateur photographers. They attempt to chronicle all aspects of school life, (such as: sports, Oktoberfest, visitors, club activities, dances, excursions, plays, and any other venues staged by students or faculty) for exhibition & publication purposes. Members of the Photography Club receive free film and a copy of every photo they have taken: a terrific deal for anyone interested in the art of photography!

Let me show you where the "secret" pictures are located. (Aurele DeBosset and Mr. Siewert)

WEIGHT TRAINING-----

"Wow, these vibrations are amazing" (Benson Yu)

After listening to a few moans and grunts, the weight lifting club told me exactly why it is they weight lift. "To protect the school from evil villains" said one, "shut up meat-head" replied Pigott. "We weight lift because we like muscles, and to attract women." Obviously they were unaware of the smell protrud-

ing from the FTC on the second floor. The only female they will be able to attract is the shower Fannie. Our weight training team has been victorious so far in all the weekend brawls against rival private schools. Keep up the good work boys!

JUDO CLUB-----

If you don't play fair in the Judo club you get thrown out ----- LITERALLY

Note - to - self Clean toe-jam from feet as soon as possible ----- Yuck!

The Judo Club continued its upward climb this year, adding more classes, more competitions, and most importantly - more people. The team now has practices every day except Friday and it is always packed. In addition to the increased practice time, the Judo team/club also welcomes a new Sensei (visiting us from Japan), Sensei Aikida.

Team members participated in a tournament in October; they didn't fair quite as well as they had hoped, but there are many more still to come. In early March, Grade 8s from BSS came to the school to learn Judo from our Grade 8s - the practice was a big success. In April and May the team will be participating in more tournaments, all culminating in the Ontario School Championships in late May (we have been the defending champions for three years now!). We look forward to again besting our arch-rival Crescent School.

Senseis Dave and Don Miller have continued to mold students from Grades 3-13 into little (and big) fighting machines as part of the regular Phys Ed program and look forward to expanding this even more in the future. Helping them out in this regard has been Sempei Chris Roscoe, who will be graduating this year.

NEWSPAPER-----

From Left, Brian Todd (looking too involved in that paper), Jay Jolliffe and Ethan Hoddes (both looking like stuffed-shirts), Mrs. Ruth Hall, the elusive Ferd Skidvice, Ian Pattillo (I don't want to know why he's giving us that face), Ms. Natasha Hill, John Seitz and Lee Vyner (Looking like he's trying to grab Seitz's well his shirt)
Not present - Graham Durrant-Taylor, Tom Hutchison, Jim Kapches, Mike Haughton, and John Karantonis

The Grifter is one of the very last open forums where students can freely express their opinions on any issue in or outside of school. Almost everything of interest to students has been in the Grifter's pages. Sensitive issues such as Casual days, to the attendance in chapel, and even the content of the skits have all had articles devoted to them. For the first time ever, The Grifter has even produced issues twice as large as the usual four pages. Classic Grifter writers again this year were Ian Pattillo and Tom Hutchison who continued to contribute their humour columns, Dr. Ferd Skidvice with his satirical advice columns. Some of the new writers that joined the Grifter family this year included Graham Durrant-Taylor with his sports views, Brian Todd with his opinion on music, and Mike Haughton with acerbic commentary on, well, everything!

-----EXTREME

The Extreme Club, led by Chris Godfrey, is a club where students get together to teach and show off their skills. Bikers, Bladers and Skateboarders take it to the extreme trying and mastering new tricks. The guys use a quarter ramp and a number of jumps to get maximum height and to just have some fun.

Pull up those pants you SKID!

Todd: YeeeeeeeeeeHaaaaaaa!

-----DEBATING

It would be fair to say that the R.S.G.C. Speaker's Union strives to replace empty arguing with informed persuasion. While House League debating does not command the numbers of Ball Hockey, our members are dedicated to their

Andrew Hepburn, Head of Speakers Union

craft. Most Wednesdays, after school saw two of the four houses square off in disorganized, humorous, often counter-productive shouting matches. Special thanks to Will Gunton for his constant tabulation of house points throughout the year. In addition to debates within R.S.G.C., the Speaker's Union prepared and sent students into the

rough terrain of inter-school competition. In October, Ethan Hoddes, Graham-Durrant Taylor and Andrew Hepburn ventured into Winnipeg for the International Independent Public Speaking Competition. As a team we placed an impressive 6th out of 25 schools. Also, by some magic stroke of luck, the perennially unprepared duo of Hepburn and Hoddes walked away with the Cross-Examination Debating crown. Deciding that Winnipeg didn't suit their fancy, Graham and Ethan, though their speaking prowess and some improbable breaks, competed in British Columbia at the National Championships after advancing from the Provincials. At Glenlyon Norfolk School they placed a most impressive 5th as a team. February saw the reuniting of the Hepburn/Hoddes debating duo at the Metro Regional Debating Finals. Ethan took 1st place with Andrew a close 3rd. Both advanced to the Provincials in April. Finally, the school competed in two Fulford Cup tournaments. At the February

edition, John Seitz and Ethan Hoddes comprised the Senior team, with Shawn Padulo and Jeff Brown as the Junior team. April saw Graham and Andrew at the final Fulford of the year, and ultimately their R.S.G.C. debating careers. On behalf of the Speaker's Union, many thanks to all those who participated. The biggest thanks of all goes to Ms. Miller, though, without whom R.S.G.C. wouldn't field the caliber of debaters it does.

Mrs. Miller - No Amir, that's not the right recipe for my magical cookies

Valedictory Address

Good morning.

We have gathered here today, for the most special celebration of our high school careers. It is a time where we gaze in two directions...on where we came from, and on the journey we are about to embark upon.

I would like to take a few moments to briefly touch upon these two paths...

Most of us have gone up through the years here at the College with one main teaching – “manners maketh man”. We were taught to do our best, dress our best, be our best in whatever we did, not only to benefit ourselves, but to honour the privilege that was bestowed on us by our family. As the years progressed, our focus expanded from personal growth, to applying that same level of attention in fostering relationships.

We were encouraged to focus on the small things, to pay attention to the details, and that in turn would lay the foundation for friendships and relationships that shall last a lifetime.

I would like to invite the entire grad class to stand now, together...

Head Boy 2001-2002 Mark Longo

...please turn around and look at each of our parents and teachers.

To our parents, thank you. You were there from the start to guide us and to provide the foundation for the individuals we have become.

To our teachers and mentors, thank you. You were there to continue our parents' mastery in moulding us in all facets of education, into the *unique* individuals we have become.

To you both, as you *see us today* - may this gesture, where words are not enough - allow you to feel honoured and satisfied in all that you have done for our sake.

Thanks guys, you may be seated...

Today we will be moving on,

and in following our dreams, our paths will diverge. But may we carry forth with us, that which we were taught; so that we may now take our place among our mentors, and also one day reach that moment of honour where we too will be looked upon and told ...thanks.

Mom, Dad – I love you both thank you for your love, your example, your sacrifice and your dedication all these years. I hope I have made you proud.

Grads, we stand on the threshold of what many consider the best years of our life – that which is still to come. But, the outcome of those years is up to us now. Therefore, let us go ahead and make that difference...May we always be prudent in planning, courageous in taking risks, patient in suffering, unassuming in prosperity.

Thank you for your time. I wish you all, the greatest of blessings...always.

Speech delivered by Mark Longo at the graduation ceremony on June 13th, 2002.
